

Welcome to Fly Virtual

General Information & Benefits

7 Nov 2017

General Membership Information

- Fly Virtual is a virtual aviation network supporting flight simulation enthusiasts and the virtual aviation community
- All members must be at least 13 years of age
- We support Flight Simulator 9 and X (both boxed and Steam), Prepar3d and X Plane Simulators (X Plane must be running on Windows – sorry no MAC support)
- Membership is free
- Members must install our SmartCars 2 flight logging client for use when flying – Windows XP and earlier are not supported
- We do allow 125 hours to be transferred from Virtual Airlines and or verified on a Vatsim account
- Vatsim membership is not required, but encouraged
- New members must fly their first flight within 30 days
- Members must fly at least 1 flight per month to remain active
 - Pilots can request leave if they are going to be unable to fly for extended periods
- Double dipping (flying the same flight for 2 different VAs is not allowed)
- Membership is a privilege and Fly Virtual reserves the right to terminate pilots without notice

Airmanship

- Reasonable airmanship is expected on each flight
 - We understand flight sim glitches & problems
- Our landing rate goal is -600 fpm or less
- Entering a comment when flight expectations are exceeded will almost always be considered favorably
- Time acceleration, slewing, unlimited fuel & inflight refueling are not allowed
- Changing aircraft after starting SmartCars is not allowed
- Flights may be paused at any time for as long as a pilot wishes
- Diverts are allowed with the following considerations
 - Normal planning requirements will be reviewed before approval – example: was departure fuel correct for the flight route plus VFR/IFR reserves
 - Must add a comment to your report with these items
 - State the flight is a divert
 - Divert ICAO
 - Reason for divert
 - Example: Diverted to KLGA. Weather below landing minimums

Call Sign/Schedules/Charters/Hubs

- Pilots may apply using any airline in our system – may be changed on request
- Call signs are your favored airline – it does not limit what airline/route pilots can fly
- Pilots can fly any schedule in our system at any time using any aircraft
 - Fly an AAL B77L schedule in a Delta A320 or a C172 for example
- Flights can be Created in SmartCars
 - Create a flight that's not in our schedules
 - Create a flight to do pattern work and do as many touch and goes as you like
- Charters can be created on the website
 - This will automatically load airports not in our main system
 - Will add the schedule using your favored call sign
- We are limiting schedules to 1 flight for city pair per airline
 - Pilots can request real-world schedules be added at any time
 - Email the FlightAware link to staff@flyvirtual.net
- Additional aircraft may be added on request
- Hubs are for pilot management only – members do not have to fly into or out of assigned hub
- Flights can be started from anywhere in the world regardless of last destination.
- Pilots may use any call sign on networks such as Vatsim and IVAO
 - We ask pilots to add "FLYVIRTUAL.NET" to the flight plan remarks block

Tours/ Events/Activities

- We keep at least 2 tours open for our pilots that provide a wide range of objectives
 - Tours are optional
- Internal events are planned when desired - information can be found in the News block, on our Facebook page and via email
- Vatsim and external events are posted in the news and sent via email as required

Benefits and Discounts

- Top rated 24/7 TeamSpeak server
- 24/7 FS Host server – for multi-player without ATC
- Large knowledge base within the membership – always available to help
- 20% discount on select Aerosoft Products
- 30% discount on FS 2 Crew products
- 20% on Sim720 products
- We are working with Rex, Just Flight, Orbx and more on discounts
- Flight sim store gift certificates for select tours/events
