

We are proud to present

**Welcome aboard our 20-leg tour celebrating the release of the
Aerosoft A318/A319/A320/A321 Addon!**

With the long awaited release of the last installment of the Aerosoft A320 family we are off to break them in as we get around Europe. We'll begin with picking up our shiny new jet at the factory and flying 20 legs across Europe on routes flown daily by 20 different carriers.

While this tour celebrates the new Aerosoft A320 family, please feel free to fly any Airbus A318 – A321 on the tour. Yes, default, JARDesign, Flight Factor, FS Labs or any other A320 you can find are all ok for this tour. We won't be picky on repaints. You can fly any livery on any leg.
