

# *A330 All Over The Place Tour*

Welcome aboard our tour celebrating the release of the  
Aerosoft A330 Addon!

Fly with us following real world A330s routes on our 2 part, 40 leg journey. We'll pick up our jet from the factory and ferry to LFPO where we'll begin our crusade flying 39 more legs around the globe. The tour will fly scheduled routes of 30 different carriers showing us how widely used the A330 truly is. As in the real world the tour is a mix of both short and long haul legs.

This tour was created to celebrate the release of the new Aerosoft A330, however, please feel free to fly any A330 aircraft regardless of the developer, i.e., Project Open Sky, Simmer's Sky, Wilco, JARDesign, etc.

Yes. This is a screen shot from the development forum!
