

**NOTAM: FS9/FSX Flyers please see the bottom of the flyer for information about VYNT Airport!**

Traverse through the Eastern countries of Asia, part of the world's largest and most diverse continent, that have some of the coldest, hottest, wettest and driest places on earth. The tour highlights its varied terrain, from mountain vistas to lush greenery and spectacular city skylines. The tour schedule includes the Capital of each country and some of the world's busiest airports where wide-body airliners are often used for short-haul flights.

Schedules, aircraft and airlines have been suggested for each route, but feel free to fly at any time of day or night, using any livery and aircraft of your choice that can make the distance.

**FS9 & FSX flyers,**

**There are 2 issues with airports.**

**1) You can download VTBS scenery from our downloads section**

**2) Work around for VYNT - Below**

The airport VYNT is not in the sim and after an exhaustive search we found no addon scenery for it. You will be using VYMD in its place.

We have created 2 schedules that will allow you to “work around” VYNT. See the graphics below for 2 specific flights you will fly in place of the regular legs 10 and 11. Flight numbers HVNCOA010A & LAOAOA011A

Please add a comment to hold the flight for a flight number change.

If you have questions, connect with us on discord, in the forums or via email.
