

Fly Virtual Ripped Fuel Long Haul Tour Part 1

This tour, driven by popular request, is a follow up to our popular Caffeine Overload Long Haul Tour.

Join the caffeine addicts again on this special tour flying through both days and nights with no flight shorter than 9 hours. The route follows real world flight schedules to some of the expected long-haul hubs, but it also

stops in a few out of the way places you might not expect. We'll be flying the same schedules as the real-world flights. The aircraft and time of day they fly is indicated in our schedule. It is permissible to use any aircraft that can make the distance. You may also use any livery - just hop in something and fly!

[Airports and Scenery](#)

You'll find a payware for many of the airports on the route from any of the popular online stores if you feel spendy.

There are freeware sceneries available for several of the airports from the usual sources, i.e. [Flyaway](#), [Avsim](#), [Freeware sceneries](#).

[Click here for the SkyVector route](#)

[Sign Up & Flying](#)

Make sure to sign in and click on the tour button. Find the tour, click details and then sign up to register. (Your name should appear in the participants list below) [Make sure you fly the correct flight Numbers](#). You can use the new Book All button to easily add all flights to your SmartCars flight list. Flights can also be added one by one by clicking the

links on the tour details page. Click the refresh button on the SmartCars Flights if already open. See below for help finding buttons and links.
